Hello,

Thanks for your message below and showing your interest in our Mobile app services.

I am **Naiara Mubashir – Business Development Executive** at **Globe IT Solutions Pvt. Ltd** . I have received your below enquiry from one of my colleague “**Khabir**” and I will take care of your query from now on.

We have checked your website <http://exclusivohumanos.com/> , we observed that it is a website designed for language learning, offering support for multiple languages.

To ensure our estimate aligns precisely with your requirements, we kindly request the following information:

- What specific features and functionalities do you have in mind for the app? Are these functionalities aligned with those on your website, <http://exclusivohumanos.com/> ? Do you have a detailed project specification document outlining your specific requirements?
- Any reference or competitor’s app that best matches your requirements?
- **Let me know if we can schedule our Zoom/WhatsApp /Google meet session to discuss the above?**

About Us:

Empower Your Brand with Globe IT Solutions : Established in 2016, Globe IT Solutions (<https://www.globeitsolutions.com/>) is a Digital Marketing Company based in India. Our registered headquarters in New Delhi drive our mission to redefine business growth, prioritizing ethics and customer well-being.

We offer a comprehensive suite of digital marketing services, catering to a diverse clientele ranging from conglomerates to SMEs. With a strong presence in India and global markets including the US, UK, Canada, UAE, Singapore & Australia, we empower brands to thrive in the digital landscape.

1. We prioritize absolute confidentiality when handling sensitive data and solutions for our clients, guaranteeing airtight protection. Additionally, we are willing to formalize this commitment by signing Non-Disclosure Agreements (NDAs) as needed.

2. Our commitment extends to upholding the highest ethical standards and industry best practices, encompassing meticulous coding practices and comprehensive commenting protocols.
3. Operating with integrity and innovation, we maintain transparent communication channels with our clients at every juncture. Whether through emails, WhatsApp, or phone calls, we ensure they are kept fully informed throughout the process.

Hi, **JOSE DANIEL AYALA URANGA**

I can create a low-cost mobile app for your business on iOS and Android platforms.

I know the majority of small/medium businesses are always looking for a great opportunity to expand and these days mobile application is a great source to increase business.

We specialize in development of mobile application for:

1. Booking App /Tracking app
2. Appointment App
3. Beauty and Wellness App
4. Training app
5. Educational App
6. Health and Fitness App
7. Shop/Ecommerce App
8. Delivery App
9. Transport App
10. Finance @ UPI Payment App
11. E-commerce Apps
12. Utility Apps
13. Social Apps & more.....

If you are interested, then I can send you more details according to your requirement.

Warm Regards,

Khabir Sultan
